

# THE BLAIRMORE ENTERPRISE

VOL. XVI, NO. 40.

THE BLAIRMORE ENTERPRISE

THURSDAY, OCTOBER 1, 1925.

\$2.00 PER ANNUM

**CASE AGAINST CHINAMEN DISMISSED**

**PANTRY SALE**

The ladies of the United church are holding their annual tea and pantry sale from 4 to 6 p.m. on Tuesday, October 6th, in the church.

The case against a number of local celestials, charged with gambling, came up for hearing before Magistrate Gresham on Monday, and as there was not sufficient evidence to substantiate the charge, the case was dismissed.

An eye-sore to a community is one that can't see any good in it.

**DEATH OF MRS. POGGIALI**

Word was received by us on Wednesday morning of the death of Mrs. Angelina Poggiali, wife of Antonio Poggiali, which occurred at Bronx, New York City, on Thursday last, September the 24th, at the age of 86 years.

Cancer of the stomach was the cause of death.

The remains were laid to rest on Sunday, September 27th.

Mrs. Poggiali was the eldest child of Mr. and Mrs. Michel Rossi, former residents of Blairmore, and occupied a residence on Victoria Street east, now occupied by the McKay family. The family left here about four years ago to take up residence in New York.

**HOME BANK COMMISSIONER TO VISIT BLAIRMORE**

The following letter from Mr. G. G. Henderson is self-explanatory:

"Ferne, B. C., September 30, 1925.

W. J. Bartlett, Blairmore, Alberta.

I will be greatly obliged if you will let the people of Blairmore know that a date will be set for me to go to Blairmore in connection with the Home Bank claims, as I have been appointed commissioner under the Home Bank Relief Act for Ferne and Blairmore.

It is not necessary for anyone to go to the expense of consulting a lawyer. There is no hurry in this matter, as people have until next June to get their claims registered.

Yours truly,  
G. G. HENDERSON."

**HEAVIEST SNOW STORM IN YEARS**

A snow storm which set in on Friday afternoon last, continued without cessation until Wednesday morning. In the foothills snow to a depth of eighteen inches to two feet covers the ground, making travel by auto impossible. Cattle are reported suffering through being unable to pasture.

The clear weather of the past twenty-four hours has reduced the snow somewhat and has slightly relieved the situation, though it will be several days yet before the heavy mantle disappears and auto travel resumes.

Old timers state that they have never experienced such a heavy snow fall at this early season, and that only once before, some eighteen years ago, was a snow storm ushered in with lightning and thunder.

**A BOOST FOR HERRON**

In connection with the nomination of John Herron, of Finzier Creek, as Conservative candidate, the Lethbridge Herald remarks:

"John Herron's nomination as Conservative candidate brings into the campaign, in Macleod constituency, the best known, and likely the strongest, personality the party could have named. Mr. Herron is an estimable gentleman, highly regarded in Southern Alberta and his candidature makes certain that the strength of all parties will be tested on October 29th."

MEN'S FURNISHINGS

**ANOTHER REAL ESTATE DEAL GOES THROUGH**

A real estate deal was consummated this week, through which the Seyan property, store and residence, on Victoria Street, is transferred to W. L. Evans, of the Blairmore Exchange.

The building is two-story fireproof, and until recently the main floor was occupied by the Sun Cafe.

Mr. Evans will shortly move his stock of new and second-hand furniture, etc., to the new premises.

**CHURCH OF ENGLAND**

St. Luke's, Blairmore.

Services on Sunday next will be as follows:

9 a.m.—Holy Communion.  
11 a.m.—Morning Prayer and Sermon.  
2:30 p.m.—The Catechism.  
7 p.m.—Evening Service.

The special preacher at the Morning Service at 11 o'clock will be the Rev. W. Barlow, lately missionary at Carcross, Yukon.

A new lodge of Elks was instituted at High River last night, with a brand new herd of slightly over one hundred. Bro. Miquelon was the successful organizer.

**POST OFFICE IN NEW QUARTERS TODAY**

The Blairmore post office opened up in new and spacious quarters this morning on Victoria Street, next door east of the P. M. Thompson Company's main store.

The rooms formerly occupied by the post office will in future be occupied by the School District as secretary's office.

**JUDGMENT RESERVED IN INSURANCE CASE**

Judgment was reserved in the appeal court at Calgary on Monday in the case of Dubuc vs the New York Life Insurance company. Guy L. Dubuc, of Pincher Creek, is appealing against the repudiation of liability by the company for an accident insurance policy for \$50 a month, the company claiming the liability was not to commence until delivery of the policy, and only then if applicant's medical condition was unchanged. Before the policy was delivered, Dubuc was in an auto accident, the seriousness of his injuries not being discovered until some time later. Longhead, McLaughlin, Sinclair and Redman appeared for the company, while H. P. O. Savary and F. McKenna, the latter of Pincher Creek, represented Dubuc.

**CALGARY TEACHERS SUBSTANTIALLY SUPPORT BLAIRMORE STAFF**

The Calgary Local of the Alberta Teachers' Alliance went on record as approving the steps taken by the provincial body in support of the teachers who were dismissed by the Blairmore School Board at a largely attended meeting Friday afternoon. Practical sympathy for the Blairmore teachers in the form of a levy of \$3.00 per teacher was decided upon by the Calgary teachers, who pledged themselves to carry this into effect immediately.

The meeting, which was largely attended, was held at 4:30 in McDougall School. M. W. Brock, president, presided. The meeting was called chiefly to decide upon some line of action to support the Blairmore teachers in their struggle against the school board. The teachers are still waiting at Blairmore in the hope of being reinstated, and the Calgary teachers, after hearing the latest news about the situation from the provincial president, F. Parker, took the above action.

By means of the levy the teachers expect to have the sum of \$450 available for the Blairmore teachers by October 1st—Alberian.

It is said that the Sunburst Coal Company, of Blairmore, is one of the few mines in the province that is working full time. The company are producing a high grade of coal and have orders that will guarantee steady work for years, unless the Ontario market becomes flooded.

**HARVEST FESTIVAL SERVICES**

Harvest Festival Services were held at St. Luke's church on Sunday last. In spite of the inclement weather, there were large congregations.

The children of the church have now donated a second banner to the church. It is in crimson and gold.

The church was beautifully decorated and good supplies of fruits and vegetables were donated.

## YOUR LAST CHANCE TO GET ONE OF THESE Weather Prophets

This coupon will not appear here again. If you haven't mailed or brought your coupon in yet, act quickly, for our supply will not last long. Our price, while they last, only 69c.

### WHERE PEOPLE BUY

People go to the store to buy; but people decide in their own homes, by their own friends, under their own reading lamps, what store to go to. At home the feet are not tired, crowds do not distract, decisions are unhurried. Newspapers and catalogues are perused with deliberation. Live merchants know this and are more and more presenting their offerings through the medium of printed matter which can be studied at home. No printed matter enters the home that is more closely read than the home paper. The advertiser in the home paper is making a direct appeal to the buying need, and newspaper readers should appreciate the direct

message which is thus being made by home people to home people.

### He Rose to Fame

An Irishman who had risen from navvy to Provost one day said to his wife: "Bridget, when I came to this country, first as a navvy I was just plain Paddy Hooley; when I became head of my squad, I was Mr. Hooley; when I became manager of the firm, I was Patrick Hooley, Esquire; when I became Town Councillor, I was Councillor Hooley; and now I am Provost, they call me Provost Hooley. And would you believe it, Bridget, when I was at church this morning, they were singing 'Hooley, Hooley, Hooley, Lord God Almighty!'"

### RULES TO HELP PROMOTE THE SERVICE OF SCHOOLS

NEW YORK, Sept. 9.—With the re-opening of the schools, the United Parents' Association, with headquarters at No. 162 West Forty-Second Street, has issued recommendations to parents in connection with the school work of their children. Here are some of the recommendations:

Arrange the breakfast and lunch-hour hours so that there is no rushing at home or at school.

Encourage punctuality and regular attendance, not permitting trifles to interfere.

See that the children are dressed simply, neatly, modestly and suitably in accordance with the weather.

Find out how much time should be devoted to home study, with good light and ventilation. Prevent interruptions as far as possible.

Show an interest in the children's school work, athletics and other activities.

Visit the classroom during open school week and at other times.

Do not criticize the teachers or school within the children's hearing. Always hear both sides of every question and ask the teacher about it.

Instill in the children the habit of obedience and respect for authority.

Picture the school as a happy, desirable place, rather than one children should dread.

Keep in mind that the school offers unlimited opportunities to those who take advantage of them.

Mothers should arouse the interest of fathers in school activities.

### RED CROSS ANNUAL CAMPAIGN IN ALBERTA

The annual campaign for funds for the Alberta Division, Canadian Red Cross, takes place on October 31st, the day known as Red Cross Day or Health Day.

A special feature this year is the system of grain donations, by which gifts of grain in lieu of cash are being solicited from farmers. All elevator companies are being instructed by the Western Grain Dealers' Association to accept donations of grain and to forward cash cheques to provincial headquarters.

"This grain campaign will in no way interfere with the regular Red Cross campaign, which is a direct appeal for contributions and memberships.

It is to be hoped that all country towns and districts will plan to have a Red Cross entertainment or dance some time during October, preferably October 31st, the proceeds to assist in reaching the objective for that community.

Lantern lectures and campaign literature as well as grain receipts and entertainment posters are available at head office on receipt of your name and address. If desired, headquarters will arrange for speakers to address meetings on behalf of the Red Cross drive.

### Why He Got a Divorce

His wife was continually feeding him pistachio ice cream, egg plant, pickled oysters, prune whip, jellied eels and gooseberry pie.

### A Sure Test

"Does your husband ever lie to you?"

"Never."

"How do you know?"

"He tells me that I do not look a day older than I did when he married me, and if he doesn't lie about that, I don't think he would about less important matters."

### UNE FEMME DONNE LE JOUE

A 35 ENFANTS A LA FOIS

The La Prensa, of San Antonio, Texas, has the following interesting story: "The news was brought by Madamela Garcia, who has just arrived from the district of Nogales, of Altar, that a woman named Francisca Ortega de Estrella had given birth to thirty-five children at one confinement."

Here is the translation from Spanish, without comment: "Last week in the village of d'Oquitoa, near the town of d'Altar, in Sonora county, Mexico, Madame Francisco de Estrella gave birth to 35 children, a case unheard of in the records of humanity. Of the children, twenty are boys and fifteen girls, all still-born. The mother never noticed any symptoms until about two months before the advent. The children measured four to four and a half inches in length and every one was well formed. Doctors of the locality were astonished at this exceptional event, which marks an epoch in the records of genealogy."

"One will remember that a few years ago a woman in Sonora gave birth to seven in one confinement and four in another, and that cases of birth of twins and triplets are frequent in Sonora."

Another report comes from Madrid, announcing the arrival of the thirtieth child to a woman of sixty-eight."

Maw—"What was the President's name twelve years ago?"

Paw—"Let's see. Let me think. I guess it was Woodrow Wilson."

Maw—"Nope—Calvin Coolidge has never changed his name."

### A Bird in The Hand

"Well," said the happy bridegroom to the minister at the conclusion of the ceremony, "how much do I owe you?"

"Oh, I leave that to you," was the reply. "You can better estimate the value of the service rendered."

"Suppose we postpone settlement then—say a year. By that time I shall know what to give you."

"No, no," said the clergyman, a married man himself, "nfake it \$5.00 now."

Conductor—"Change here, please!"

Lady—"What, th front of all these men!"

Her—"If I married you, with your income, you couldn't even dress-me."

Him—"Well, I could learn in a few lessons."

### Bridal Wreaths

The way of a man with a maid is usually the bridal path. Some have a hope chest—others a hopeless case. Better a bride at home than two at a bridge party.

She believes long engagements take too much powder.

Brides who go in for light house-keeping are often at sea.

If hubby has the dough there's no baking done by wife.

Fellows tangled in widow's weeds are not in clover.

A lot of bridal couples now see Niagara Falls at the movies.

A new groom sweeps clear.

Him—"I've never seen such dreamy eyes."

Her—"That's because you never stayed so late."

## Unveiling The "Altar of Peace" at Vancouver

The President Harding International Good-Will Memorial located in Stanley Park, Vancouver and erected by Kiwanis International through the voluntary subscription of the 95,000 members in the United States and Canada, was unveiled by John H. Moss, president of Kiwanis International on September 18th in the presence of a large gathering of both United States and Canadian government officials and members of Kiwanis.

The memorial was designed by Charles Marega, a well known Italian sculptor of Vancouver. When the scheme was first decided upon, it was the intention of the American Kiwanis Clubs to raise the funds on their side of the border and to present the memorial to Canada. Canadian Kiwanis, however, insisted upon contributing towards the fund and the memorial was thus erected by the joint efforts of the United States and Canadian clubs.

At the unveiling ceremony, the Dominion Government was represented by Hon. Dr. J. H. King and Dr. G. T. Harding, brother of the late president. United States Kiwanis was represented by International President John H. Moss, and International Past President Victor H. Johnson and Edmund F. Arras. The Canadian Pacific Railway was represented by Frank W. Peters, General Superintendent at Vancouver. Several of the United States delegates stayed over at Banff and Lake Louise and other points in the Canadian Pacific Rockies before proceeding to Vancouver. The memorial itself is throughout a made-in-Canada product, being designed by Canadians and made of Canadian materials by Canadian labor.

The site of the memorial is the spot where the late

President Harding made his last public speech, when just before he died in 1923 he visited Canada. Warren G. Harding, late president of the U. S. A. was a charter member of the Kiwanis Club at Marion, Ohio, his home town.

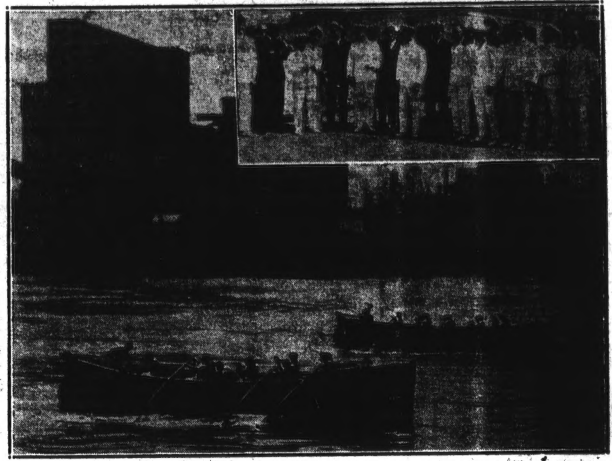

An extract from the speech made by the Chief Executive of the United States on that occasion, written in bronze for the memorial, and the possible text of many a murmured prayer of hope of the cosmopolitan tourist who reads it as he passes through the park, is as follows:

"What an object lesson of peace is shown today by our two countries to all the world. No grim-faced fortifications mark our frontiers, no huge battleships patrol our dividing waters, no stealthy spies lurk our tranquil border hamlets. Only a scrap of paper, recording hardly more than a simple understanding safeguards lives and properties on the Great Lakes, and only humble mileposts mark the inviolable boundary-line for thousands of miles through farm and forest."

"Our protection is in our fraternity, our armor is our faith, and the tie that binds, more firmly each year, is over-increasing acquaintances and comradeship through interchange of citizens; and the compact is not perishable parchment, but of fair and honorable dealing, which, God grant, shall continue for all time."

The memorial, which is known as "The Altar of Peace," has been referred to as the only material symbol of fortification, outside of mileposts, to outline the invisible demarcation of the thousands of miles of border line separating the two countries from the Atlantic to the Pacific.

## The Navy Wins

A ship's boat race between crews representing the Cunard Line, Algonia and H. M. S. Calcutta took place recently in the harbour basin of Montreal. The picture shows the navy boat passing the winning post half a length ahead of her opponent.

## WILL PUBLISH REPORT

## ON ALBERTA'S FLORA

Dr. M. O. Malte, chief botanist of the Victoria Memorial Museum, Ottawa, and former Dominion agrologist, has been doing field work in the south of Alberta this season, with headquarters at Pincher Creek. To those interested in botany this visit is a memorable one, since it brings one of the foremost botanical authorities in Canada to the district and guarantees that our knowledge of the flora of Alberta will be greatly improved and extended as a result.

Dr. Malte and his assistant, Wade Watson, graduate of Toronto university botanical department, 1925, have visited the Pincher Creek, Kelly's shortly publish a book on the flora of Camp, Porcupine Hills and Waterton

Lakes districts this season and are at present finishing their work at the latter point. During July and August they were at Banff, Lake Louise, Red Deer, Norreger, Coalpur and Rocky Mountain House, thoroughly collecting every type of vegetation to be found from the lowlands and river bottoms to the highest peaks. To date the collection contains some 5500 mounted sheets, representing about 2000 species and varieties of flowering plants, which is an imposing total when compared with the 200 or perhaps fewer specimens collected by the average student.

With over 110,000 mounted specimens in his collection at the Victoria Memorial Museum, Dr. Malte will visit the Pincher Creek, Kelly's shortly publish a book on the flora of Camp, Porcupine Hills and Waterton

## HOT DOGICA

A story is told of a young lady who went to a boarding school. On the farm she was always known as "Jessie," but about the third letter she wrote home was signed "Jessica." Brother Tom replied to her letter: "Dear Jessica: Dadica and Monica have gone to visit Aunt Lizicka. Uncle Samicka is talking of buying a new machinica, but doesn't know whether to buy a Fordica or Chevica. The old cowica had a calfica. I was going to call it Nelica, but I changed it to Jimica because it was a bulfica. Your loving brother—Tomica."—Viking News.

## Southern Alberta is Beekeeper's Paradise

Upset—Beekeeping the honey in the beehive. Below—A colony of bees in a hive.

Southern Alberta's irrigated districts, with their large fields of alfalfa and sweet clover, promise to become the beekeeper's paradise within the next five years.

Two years ago, less than 10,000 pounds of honey were produced in Alberta. Last year, 60,000 pounds were produced—and 22 carloads imported into the West to supply the demand. This year, the C.P.R. irrigated project at Lethbridge, there will be produced more than 100,000 pounds. And this is just a start.

"Southern Alberta's irrigated districts will be shipping trainloads of honey to the markets within five years," declared Frank C. Fellate, field editor of the American Bee Journal, Hamilton, Illinois, on the occasion of his visit to Southern Alberta late in July this year. "This is the greatest promise of honey production in North America."

Today, one expert in the Canadian section on the C.P.R. irrigated project has 600 colonies of bees. This year, C. George Haden, came to Southern Alberta from California in 1924 and started with 200 colonies. In 1925 he will have

1800 colonies and will make more than 160 tons of honey. This year his bees will make him about 80 tons, and the wholesale firm having branches throughout the West is handling the whole output.

Each colony of bees makes about 200 pounds in a season, though one colony at the Lethbridge Experimental Farm broke all records for

Canada by making 472 pounds in the season of 1923. A record of 21 pounds in one day by one colony was made in 1923 when the bees at the Experimental Farm averaged 189 pounds for the season, the high record for the year of the experimental farms across Canada.

Radio receiving licenses held in Canada at the end of last month numbered 56,083, according to a statement issued by the Federal Government. Ontario leads all provinces with a total of 28,507. Quebec occupied second place with 7,882 licenses, followed by Saskatchewan with 5,851; Manitoba, 4,443; British Columbia, 3,592; Alberta, 3,004; Nova Scotia, 1,435; New Brunswick, 785; Prince Edward Island, 87; Yukon, 22; and Northwest Territories, 5.

A consignment of 21 fox hounds from the famous Mendip Hunt Pack, in Somerset, England, was brought to Canada early in August by the Dominion Express Company for the Toronto Hunt Club. The English papers published photographs of these splendid animals and expressed gratification that good British hounds were being used on the hunting fields of Ontario. This is the third such consignment brought out by the Dominion Express within recent weeks.

The delegates to the Empire Press Conference at Australia who came from Britain and passed through Canada recently spent several days in the Canadian Pacific Rockies, and enjoyed themselves trail-riding and hiking among the beauty spots that surround Banff and Lake Louise. Lord Burnham and several other distinguished British journalists established new walking records in covering the distance between Wapita and Emerald Lake in two hours, while it took the trail riders on ponies two hours and a quarter to cover the same ground.

Representing education authorities and the public and secondary schools of Great Britain, about one hundred teachers from the United Kingdom arrived recently at Montreal on the "Empress of Scotland" and are now touring the country. Before their departure they received a congratulatory message from King George and on their arrival were tendered an official reception by representatives of the Quebec provincial government, prominent educationists and were entertained to dinner at the Chateau Frontenac by E. W. Beatty.

In a recently published monograph on "The Transportation of Canadian Wheat to the Sea" Miss L. M. Fair, M.A., makes the following comparison of Canadian and United States rates to show to what extent the resources of our railways are organized for the benefit of western producers:

To Port	Miles	Rates per U.S.
From:		cents cents
Winnipeg	420	.06 .12
Portage la		
Prairie la	475	.09 .13
Carberry	525	.09 .13
Broadview	584	.10 .18
Regina	776	.12 .21
Medicine Hat	1,076	.14 .27
Lethbridge	1,177	.15 .28
Calgary	1,248	.15 .28

The open season for prairie chicken commences today and large numbers of local nomads have gone to the prairies in quest of them. Owing to the Hungarian prairie season opening two weeks earlier, the chickens through being already scared will be hard to land.

## MINE OPERATORS' ORGANIZATION DORMANT

The Western Canada Coal Operators' association has ceased to function, although an office is to be maintained in charge of a clerk to take care of the records. The chief function of the association was in connection with collective bargaining with the U.M.W. of A., but owing to the miners in the steam coal fields abandoning the U.M.W. of A., and the operators in those fields withdrawing from the association and entering into individual contracts with their employees, there is not much left for the association to do. Still, it appears that the members intend to keep in touch with each other in view of future possibilities, so the association can come back on short notice.

—Ex.

James Oliver Curwood, the well-known American novelist, who crossed not long ago to Europe on the "Empress of France" and returned a few weeks later to Canada on the "Empress of Scotland," wirelessly the following message from the "Scotland" to the Canadian Pacific headquarters in Montreal: "Can never fully express my appreciation of the splendid treatment accorded me by Captain Gillies and Captain Griffiths, and the staffs aboard the 'Empress of France' and the 'Empress of Scotland.'"

Under the heading, "The Inconsequences of Men," C. E. Fleetman contributes the following interesting remarks on freight rates to the August "Railway Review":

"Man's progress is measured by his adaptability to his surroundings and his opportunity to trade with his fellow men by exchanging products. Transportation is the essential instrumentality for trade, commerce or business of any kind."

"The phenomenal prosperity of the United States today is the direct result of the most efficient transportation facilities in the world—railroads."

"Railroad transportation is worth ten times what it costs today to every person in this nation. The railroads haul year meet 500 million for 36 cents a hundred pounds, you pay from 38 cents for cheap cuts to 68 cents for special cuts of meat or from 60 to 150 times the cost of transportation."

"The railroads haul flour 400 miles for 134 cents a hundred, 7 pounds for one cent. You pay 19 cents a pound for bread or 70 times the cost of transportation."

"You pay one dollar for a meal at a first class hotel on which the freight charges were less than two cents, including everything served, and the coal to cook it, and then tip the waiter ten cents or five times what the railroad received for hauling it 400 miles or more."

"The same man who tips the waiter ten cents will go out and make a speech and complain of high freight rates which are not one-fifth of the amount of his tip."

"Consistency, then, is a jewel!"

## Here is the Summer Home of Mister Jack Frost Himself

THIS is the Ice Cave in Mount Sir Donald, near Glacier, B.C. The light of the sun streams in through the opening at the far end causing the frozen walls to glisten as though built of a thousand stars and thousand diamonds. It is rumored that this is the official summer residence of Jack Frost himself, to which the Chilly Monarch retires for his annual nap from spring time to autumn.

And this is a scene from Mr. Frost's private grounds, on the roof of the world in the Canadian Pacific Rockies. It is here, so we understand, that Mr. Frost spends most of his time when not asleep in his Cave. For a pastime he enjoys most of all riding around on chunks of floating ice and his favourite food is a good, deep crackle glacier which he prefers coated with a generous frosting of newly fallen snow. When the winter comes and the nights are long and dreary he lets out a wild whoop of joy (so we are told), jumps on a passing snow cloud and sails away over the continent, pushing down mercuries and heaping up snow drifts wherever he goes.

But after all, nobody takes him very seriously these days, for it would be a tiresome old world to live in if Friend Frost didn't come along once in a while and give us something to contrast with the summer.

## Winning New Customers

This ever-present task of the business man is one that Advertising can most efficiently perform.

Advertising in "The Enterprise" would carry any message you desire into every home in this community. It would spread the "news" about new merchandise, special sales or new store policies quickly and thoroughly.

Take a friendly interest in telling the "buyers" of this town what you have for sale that is of service to them and you will win new customers constantly.

## PROGRESSIVE MERCHANTS ADVERTISE

Issued by Canadian Weekly Newspapers Association

### SAPIRO LOSES SUIT

REGINA, Sept. 22.—The suit of Sapiro against the Star and Phoenix, of Saskatoon, and the Leader, of Regina, was withdrawn from the jury by Mr. Justice MacDonald today. He upheld the argument of H. J. Symington, K.C., for the defendants that the comment in the newspapers was fair comment upon a matter of extreme public importance and the plaintiff had failed to prove malice.

Complete justification was accorded the newspapers in the remarks of his lordship in making known his decision after H. J. Symington, K.C., leading counsel for the defendants, asked for his suit. Mr. Symington pleaded that the occasion on which

the matter alleged to be libellous had been published was a privileged one. The publication had been without malice.

Recalling the jury at the conclusion of the argument of H. J. Symington's motion, Mr. Justice MacDonald instructed them that the plaintiff had alleged that the defendants had falsely and maliciously published certain statements. The defendants on the other hand, he said, had pleaded that they had acted without malice and in the interest of their readers and the public at large, that it was, in fact, its duty to publish the statements complained of.

"When the plaintiff proves publication of the statements, it implied malice; but if the defendant proves that

it acted in the public interest and that it was the duty of the defendant to publish the statements, then it has established a 'privileged' occasion," continued his lordship, "and if the charge of malice is rebutted successfully, then the defendant cannot succeed in his action." It is for me to determine whether or not defendants acted upon a privileged occasion, and on looking up the evidence of both Caswell and Brullette, it is apparent that their examination anticipated the motion made this morning. I obtained a transcript of Caswell's evidence yesterday," continued the learned justice, "which was to the effect that the question of whether or not a wheat pool should be established in Saskatchewan was of vital interest to

everyone in the province."

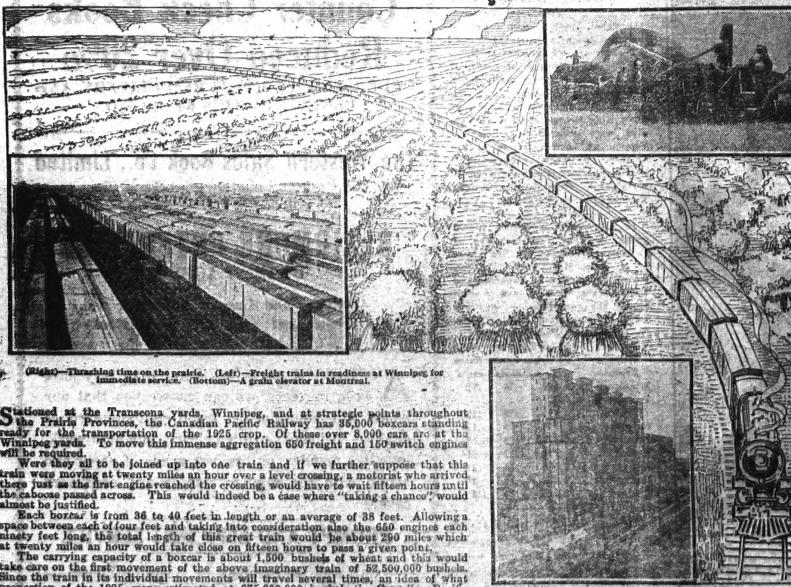

His lordship continued to quote from the evidence of Caswell, given at yesterday's hearing.

"The evidence of Brullette bears out those statements of Caswell," he continued. "From this it is clear the matter was of great interest concerning the public, and that in the circumstances no newspaper would be worthy of its name if it did not communicate all the facts to its readers. Once the occasion is established as privileged, it shows that defendant acted in a bona fide manner and in all honesty."

"The case, therefore, is withdrawn from the court."

## Train 300 Miles Long to Carry Crop

(Right)—Thrashing time on the prairie. (Left)—Freight trains in readiness at Winnipeg for immediate service. (Bottom)—A grain elevator at Montreal.

Stationed at the Transcona yards, Winnipeg, and at strategic points throughout the Prairie Provinces, the Canadian Pacific Railway has 55,000 boxcars standing ready for the transportation of the 1925 crop. Of these over 5,000 cars are at the Winnipeg yards. To move this immense aggregation 500 freight and 150 switch engines will be required.

Were they all to be joined up into one train and if we further suppose that this train were moving at twenty miles an hour over a level crossing, a motorist who arrived there just as the first engine reached the crossing, would have to wait fifteen hours until the last engine passed. This would indeed be a case where "taking a chance" would almost be justified.

Each boxcar is from 36 to 40 feet in length, or an average of 38 feet. Allowing a space between each of four feet and taking into consideration also the 650 engines each ninety feet long, this great train would be about 280 miles which at twenty miles an hour would take close on fifteen hours to pass a given point.

The carrying capacity of a boxcar is about 1,500 bushels of wheat and this would take care on the first movement of the above imaginary train of 55,000,000 bushels. Since the train in its individual movements will travel several times, an idea of what proportion of the 1925 crop, estimated at 575,000,000 bushels the Canadian Pacific Railway will carry, is indicated.

Among the engines used in the hauling of the wheat trains are some of the most powerful in the world. Reckoning in the weight of coal carried, the heaviest of these engines weighs about 375,000 lbs. While the heaviest, loaded with grain, weighs 140,000 lbs. The average grain train is composed of forty boxcars, so the weight is about 5,600,000 lbs. or 3,000 tons. The total number of such trains would be 87½ which would give a total weight of 2,550,000 tons.

Cutting of the crop is already under way and movement of the grain will commence about the end of August and will continue until the close of navigation on the Great Lakes which is generally between the 15 and 16 December. During the banner crop year of 1923, the Canadian Pacific Railway operated in connection with the movement of the grain approximately 514 trains and 23,720 men were required to handle the traffic. In that year the Canadian Pacific Railway moved 220,000,000 bushels.

### AIN'T IT THE TRUTH

(With apologies to William I. Huston, Esq., Blairmore)

A man is something that can see pretty nuckle three blocks away while driving a motor car in a crowded city street, but will fail to notice the wide open countryside the approach of a locomotive the size of a school house and accompanied by a flock of forty-two box cars—American Auto Digest.

### NEW TREE CALL; MINERS AND THE PROSPECTS IN CANADA

Special interest has been aroused in colliery districts throughout the country by the official statement made through the Empire News that men are badly needed for the anthracite mines in Canada.

The announcement came from Major S. J. Robbins, private secretary to the Dominion ex-Premier, Mr. H. A. Meighan, on his arrival in Liverpool.

It has attracted particular attention by reason of the unrest in the mining industry at home and the appeal which Canadian life makes to the heads of growing families.

In a large batch of correspondence received by the Empire News, writers in the districts of Wrexham, Nottingham, Sheffield, Doncaster, Ravenshorpe, near Dewsbury, and in other quarters intimate their readiness to make the adventure suggested.

All are advised to write direct to Canada House, London, the Governor-General's staff being fully prepared to define the Dominion prospects. This will serve as a reply to all our correspondents.—English Exchange.

### NEW ROMAN CATHOLIC INDIAN SCHOOL AT CARDSTON

The second Indian school within a radius of seven miles of Cardston is now nearing completion. The new building will be occupied by Father Rugux, and a staff of Roman Catholic priests and nuns. It is much larger than the St. Paul's school, though not so high.

The brick walls are now all laid, and the building will be closed in during the next ten days. The roof will be flat instead of having spires like St. Paul's. The front will have an elaborate balcony across its main building, which can be used for sewing classes and other work by the kindly sisters whose weather permits. The plumbing is nearing completion and much of the inside work is being done, but it will be the end of the year at least before the school is ready for occupancy.

More than a quarter of a million dollars will have been spent by the Dominion government on these two schools when their second one is finished. The Indians are thus equipped with the very best educational facilities. With a population little more than half of Cardston, they are provided with two splendid educational institutions, costing in the aggregate more than five times the total cost of Cardston's school plant.

The Blood Indians are proud too of their building. They are giving remarkably good notice to those attending their children there, and the young generation of Indians are proving themselves to be thoroughly capable of receiving what is being offered by these schools.—Cardston News.

Gold production in Canada in the first half of 1925 reached a new record of \$24,043,436, worth \$17,004,436.

Mr. Clarence Reddick, who for several seasons has played with the Blaimore senior hockey team, has signed on with Duluth and left the early part of the week to look over his new territory. Mr. Reddick, after spending a few weeks in Calgary, will leave for the east to join his husband. The local hockey fans wish Clarence well in his new field.

On Wednesday, September 23rd, a nomination meeting for the Literary Society of Grade VIII room took place, and the elections were held on September 25th for the various offices. Pupils nominated gave campaign speeches, soliciting support of their classmates. The following officers were elected: President, Barbara Wallace; vice-president, James Kemp; secretary, Edna Christopher; treasurer, Grace Wheatley; reporter, Orla Green. Programme committee, Ethel Cartwright, Percy Leary, Margaret Wolfenbulte. Special Committee, Florence North, Emma Christy, Mabel Verigin. An interesting feature was that the election was held strictly according to parliamentary procedure.—O.G.

**Salesmanship**  
A Hebrew salesman at one of the department stores was approached by a lady dressed in mourning and evidently in much distress. She said her husband was dead and she wanted to buy a suit of clothes to bury him in, but did not know what kind to get.

Not only did the salesman satisfy the poor lady in her predicament, but he managed to sell her a suit of clothes with an extra pair of pants.

Doctor—"I will give you a local anesthetic if you think it necessary."  
Railroad man—"Well, doc, if it's going to hurt I reckon you had better cut out the local and run me through on a sleeper."

A number of local friends were guests on Friday night of Mr. and Mrs. D. M. J. Conway. Whist and dancing formed the principal part of the evening's programme. Included in those present were: Mesdames Gibson, Craig, Conway and Wheatley; Misses C. Marquis, A. Carter, F. Gibson, A. Marquis, M. E. Rae, B. Douglas, V. J. Keith, Mildred Pasmore, J. Gailay, B. Williams, E. M. Fulton, J. Nicol; Messrs. J. H. Bond, H. P. Thorson, D. M. J. Conway, J. McEachern, J. McLean, W. J. Bartlett, J. Hall, K. G. Craig, J. Mackenzie.

Bea—"Hold me on your lap, dear." George (weight 300 lbs.)—"Sure, try and find it."

Before marriage she says: "When do we eat?" After marriage he says: "It is."

Mr. Gay—"Ah, hear those wedding bells?" Mr. Grump—"Pooh, you mean lemons on peals."

Old Lady—"Oh, conductor, will you please stop the train. I dropped my wig out of the window!"

Conductor—"Never mind, madam, there's a switch just this side of the next station."

**Which Do You Prefer?**  
There are two kinds of kisses, of which the kiss simple is the more domestic and tame. It is seen when dutiful bachelor uncle comes to see the lady, and when two girls meet on the street after not having seen each other for three hours and a half.

The soul kiss is a stronger, more vigorous bug. It is the kind that is given when an embryonic mouse-tache gets a strangle-hold on a wad of chewing gum, and it lives a strenuous life until a couple of weeks after the liner shows when it dies of neglect. In the older days a man kissed his adored one on her marble brow, but has since dropped the habit about four inches.—Kablegram.

## C.N.R. ADOPTS NEW TYPE ELECTRIC PASSENGER CAR

A new type of passenger car, operated by electricity developed by a generator installed within the body and which it is hoped will help to solve one of the great problems of Canadian railroads, has been placed on service on certain lines of the central region of the Canadian National Railways. This type of equipment, known as the Diesel Electric Car, represents an entirely new development in motive power and brings to a successful termination one of the most interesting chapters in the evolution of rail transportation in North America.

Two types of cars, one with a single 60-foot body and the other with two bodies with an overall length of 120 feet, have been designed. The former carries 56 passengers in addition to baggage and express and the latter 120. A Diesel engine, operated by fuel oil, is located in one end of the car. It is started by a small electric motor, which in turn generates sufficient electrical energy while operating to charge storage batteries for the motor and also for lighting etc. The engine in the small car has four cylinders developing an output of 160 B.H.P., while an eight-cylinder engine operates the large car with a rated h.p. of 320 B.H.P. In both cases, the engine is self-governed and cars can be operated from either end of the car, so that construction of a way for turning is not necessary.

While no extravagant claims are being made for the performance of the new cars, tests made during the past month show that they are both economical and eminently suited for suburban, inter-urban, and branch line traffic where there is insufficient density to warrant the more costly operation of steam trains. On a preliminary trial run of the 60-foot car, operated from Montreal to Toronto in eight hours and thirty minutes actual running time, without difficulty, and without stopping the engine. On a side trip from Fort Hope to Lakefield the same day, the car handled a coach and trailer and was able to negotiate heavy grades at a moderate speed. The fuel oil consumption from Montreal to Toronto, including hauling trailer to Lakefield and stand-by losses, averaged one gallon for 4.6 miles, or about ten per cent of the fuel cost for similar steam operation.

To Q. E. Brooks, chief of motive power of the Canadian National Railways, R. J. Needham and R. G. Gage, engineers, should go the credit for the new development. For more than three years they have been working on their plans with the support of Sir Henry Thornton and Vice-President S. J. Hungerford. Except for the engines and specially constructed generator, the cars are the product of the Point St. Charles shop of the National system at Montreal and are therefore a truly Canadian product.

The lumber export trade from Vancouver with Japan has been steadily increasing since the war, and official figures covering logs, timber and lumber of all kinds show the following results for the last three years: 1922, 568,438,000 feet; 1923, 742,821,000 feet; 1924, 839,751,000 feet.

Right Hon. Arthur Henderson, well known labor leader, will sail for Canada on October 22nd, and he is accompanied by his son, William Henderson, G.M.P., secretary of the joint press and publicity department of the Trades Union Congress and Labor Party. They will visit Montreal, Ottawa, Toronto, Hamilton and Detroit.

Levin McDonald, alias "Kid Burns," was arrested near Hanna last week, after hiding from the authorities since his brutal assault on W. Sherman, the U.M.W. of A. president. He is now in jail awaiting trial, but the time being refused him. McDonald, after assisting to incite trouble in Nova Scotia, has been leading Communists in some of the Alberta mining camps. Besides causing trouble otherwise, he is famed as a bill-board artist.

## COWLEY HAPPENINGS

Miss Doris Elton has gone to Calgary to enter normal school.

Snow has been falling for three days and will seriously delay travellers.

On Wednesday night, John Herron, Conservative nominee for the Macleod federal riding, held a meeting in Cowley. Though the meeting was not advertised, it was very successful.

The children's party, given by Mrs. M. A. Murphy on Friday afternoon, for her little daughter Edith, was well attended. The youngsters had a lively time.

The last meeting of the Women's Institute was held at the home of Mrs. M. A. Murphy on Thursday evening. Ways and means of raising money for the Red Cross was discussed. It was decided to put on a white drive and dance in the Masonic hall on Friday night, October 2nd, which beginning sharp at 8 o'clock. Refreshments were served by Mrs. Fred Tustian and Mrs. Powell.

## AFTER THE FUNERAL, FOR WHICH THE LODGE PAYS, WHAT HAPPENS NEXT?

Half our readers will recognize some homely truths in this; it conveys a few homely thoughts to the thrifless—perhaps it will fit the case of your home.

The lodge having buried Mr. Dill, Mr. Dill of Vancouver, and kindly neighbors having contributed their wreaths and condolences, there remained nothing when the family returned from the funeral except to enquire: "What now?" It was a question, as funerals go. There was a goodly gathering of good fellows, who whispered that "Dill" was a good scout, but it was a pity he had never saved his money. The minister (with some doubts in his soul as to whether he could collect a fee for the service) delivered a nice eulogy, and told his hearers that the deceased was a kind, honest, a good citizen and a faithful parent.

The choir intoned consoling sacred melodies designed to soothe the grief of those left behind; the undertaker, whose fee was O.K'd by the lodge, offered nothing but becoming dignity, and saw to it that Mr. Dill Atory was committed to mother earth without a hitch.

Mr. Dill Atory had lived as though he had never expected to die. This is a true tale though in the archives of Vancouver's vital statistics, there was really no Mr. Dill Atory. But the man who mentions his name—Dill Atory, which explains the case happens often here, there and everywhere. Every man is familiar with it. Every residential street knows it. Nearly every family, too, can relate a story much like this.

In brief words, the case of Mr. Dill Atory may be your own case, for all men are mortal. It is the story of a man who puts off his insurance, the good, kind, lovable fellow who lives from day to day, deferring the saving of a cent; that likable chap who "leaves his family" in the lurch when his happy-go-lucky life is suddenly extinguished.

Mind you this is not an "ad" for any particular insurance company. It is a plain and dutiful pointing out of neglected duties perpetrated by many otherwise earnest men who defer their saving until it is too late. The day is sufficient, or however it goes. Poor fellows, no looking beyond their noses. If they are to tomorrow's meal in the larder; satisfied if credit is all right at the corner store; content if there is a dollar or two left from the weekly or monthly budget; well dressed as the Jones. They feel, indeed, when the wife (usually a shrew) tells of how she wears a better dress and the children are better dressed than those snooty, snooty next door. Perhaps the shabby folk next door own their own home.

Doubtless the man next door is well up in endowment or death and sickness insurance; and it is very likely the next door woman has a true little sum in the savings bank. But it's the man that counts with some people; and the poor old fellow never comes home until the bereaved family of the late Mr. Dill Atory comes from the funeral to face the nubbin of living without the aid of their departed and thrifless bread-winner.

If you can't see a moral in this it's hardly worth while explaining it. Saturday Tribune.

Mrs. H. M. McMillan, of Glasgow, Scotland, has been visiting here for a few days with her uncle, Mr. John Hall. Mrs. McMillan is on the last lap of a round-the-world cruise, and is thoroughly enjoying the trip. She has confined her travel to British possessions.

A steamer was rounding Cape Horn recently when the captain saw a gigantic iceberg floating in the water, and on it was a large three-masted schooner with its boats still in position, but apparently no one was on board. It was impossible to get near enough to see its name and what has happened to its crew remains a mystery.

## MEDICINE HAT TEACHERS STAND BY BLAIRMORE STAFF

MEDICINE HAT, Sept. 24.—Medicine Hat teachers enthusiastically endorse the stand taken by the Blaimore teachers and pledge their assistance until such time as their differences with the Blaimore board are satisfactorily settled. They also appreciate the action of certain members of their profession who declined for professional reasons and in many cases at considerable sacrifice, positions offered by the Blaimore school board. Such were the decisions reached by a combined meeting of the Medicine Hat High School local and the Medicine Hat Public School local of the Alberta Teachers' Alliance held in the Alexander School last night.

At the meeting, which embraced practically all the teachers of the Medicine Hat city schools, the chairman called upon the local members of the provincial executive to review the Blaimore situation to date. Reports showed that the great majority of the Blaimore citizens are sympathetic to the Blaimore staff, and that the former staff are still courageously remaining in Blaimore to receive their salaries. The attitude of the local teachers was therefore reached by the following resolution:

"We, the members of the combined local of Medicine Hat High and Public schools hereby compliment the Blaimore staff on the courageous stand they have taken in the interest of the profession and also hereby promise to assist them until such time as their differences with the Blaimore school board are satisfactorily adjusted."

The warm approval of the action of certain local teachers as well as a number of recent local normal graduates in this city, who at considerable sacrifice declined positions offered by the Blaimore board, was expressed by resolution of the meeting. The Blaimore Enterprise's fairness and sympathy of a large proportion of Blaimore citizens, marked several of the speeches of the meeting.

## HAS THEM GUESSING

Lloyd George has Great Britain guessing again with his new land tenure proposal. His proposal is that the government shall acquire farm lands, paying the present owners a rental based on the land's real economic value. The land then would be rented to tillers of the soil and to their descendants, who would be assured of absolute possession so long as they cultivated efficiently, but who would forfeit the land if it were not used properly. A system of land credits would be instituted by the government to get the farmers going.

The Daily Herald, an extremely radical paper, says: "The Lloyd George scheme of land tenure is one that unless Labor can quickly evolve something better it may do us much harm."—Ex.

The Okotoks covered-in skating and curling rink collapsed under the great weight of snow on Tuesday afternoon. The wrecked rink was built in 1918 at a cost of \$6000.

are informed by Mr. Placel, proprietor of the local Orpheum theatre, that the big picture, "The Ten Commandments," will appear next week, probably Tuesday and Wednesday. Watch for later announcements.

The whist drive and social, given in the Lodge Hall last night by the ladies of St. Anne's church, was most successful. Court whist was played and twenty-four tables were followed. Six prizes were awarded. Following whist, refreshments were served and dancing was indulged in for a couple of hours.

We learn that Mr. G. H. Thompson, until quite recently chief electrical engineer with the West Canadian Collieries at Blaimore and Bellevue, has accepted a position with the Newfoundland Pulp & Paper Company, at Corner Brook, Newfoundland. The N. P. & P. Co. have one of the largest power plants in the world, costing upwards of \$4,000,000, which it is expected will electrify the entire Dominion of Newfoundland.

A public meeting will be held in the opera house on Monday night in the interest of Mr. G. G. Coote, Progressive candidate for the Macleod federal riding. The meeting starts at 8 o'clock and will be addressed by Mr. William Irvine, Labor nominee for East Calgary, and Mr. Coote. They will also address a meeting to be held at the Coleman opera house at 2:30 p.m. the same day. Mr. Coote and other speakers will address a meeting at the Rex Theatre, Bellevue, on Tuesday at 8 p.m.

# ROSE COFFEE

Confidence--A National Keystone

Evidence accumulates of the tremendous impetus which the 1925 crop of Western Canada is giving to business throughout the length and breadth of the Dominion, while paving the way for still greater increases and expansion. Almost every day the daily newspapers tell of some new record established. Both the C.P.R. and Canadian National are loading larger numbers of cars daily with grain than ever before in their history, with the result that the stream of wheat pouring into the terminal elevators is surpassing anything hitherto experienced in this country.

The Saskatchewan Co-operative Elevator Co., the largest flaxseed handling company in the Dominion, if not in the world, recently took in 1,200,000 bushels in one day, where as in no previous year did it quite reach the one million bushel mark.

Another most gratifying feature of this year's crop is that the actual yield per acre is not only coming up to the earlier estimates, but, taken on the whole, those estimates are being exceeded. In the matter of grade, too, the out-turn is highly gratifying, this year's crop grading higher than in any previous year. Not only is a very high percentage of contract grades, but at least half of the contract grades in Saskatchewan is reported as No. 1 Northerns.

The large increases in wheat production in Canada this year, the satisfactory yield per acre, the good grade, and the substantial price is becoming well known throughout the United States, where the crop this year has fallen away below the average. As a result a movement of United States farmers to Western Canada has already begun.

The 1925 crop has also provided a final and conclusive reason for such an old established concern as the Hudson's Bay Company to take active steps to carry into effect its pre-war policy of extending operations throughout the West. The H. B. Company has, therefore, commenced building operations on a new \$5,000,000 store in Winnipeg, is enlarging its store in Vancouver, has purchased additional property to provide extensions at Calgary, Edmonton and Saskatoon, and has just concluded the purchase of an extensive site for a store in Regina.

These are some of the outward and tangible evidences of the renewed confidence in Western Canada which is now felt by everybody. That renewed confidence is, in fact, the most valuable asset of all. It means more to our people and to this country and its future than all the millions of dollars of new wealth which the crop itself represents.

While the West was passing through the past few trying and difficult years, there was an all too general tendency towards pessimism and in the direction of deriding the country itself. When times are rather hard, and people are looking at the blue side of things, they are apt to forget that all countries have periods of depression, and that every year cannot be a "good" year. This year's crop, however, has demonstrated that Western Canada, as a country, is all right, and as a result the people are taking heart. There will be no boom, but there will unquestionably be a newer and firmer confidence.

And confidence is, let it be repeated, a real and vitally important national asset. Lack of confidence on the part of the people of Canada individually has, in the past, been an outstanding national weakness. In the planning and execution of great national undertakings Canadians have displayed confidence, but all too frequently in their individual capacity and enterprises they have been timid and fearful to venture. Such lack of confidence has been more in evidence in the East than in the West, although this section of the Dominion has not lacked croakers and prophets of blue ruin.

This year the West is not only proving to its own people what it can do, but it is demonstrating to all Canada and the world at large that under normal conditions it can provide the means to keep all the wheels of industry turning.

## 2 Years' Backache Subdued by "Nervine"

"Backache was the bane of my life, and for two years I was so lame as to be unfit for work," writes E. S. Stano, from Georgetown. "While in Smith Bros' Drug Store I heard of Nervine being a wonderful pain-destroyer, so I decided to try Nervine. Thanks to Nervine, my two years' backache was rubbed away, and to-day I am perfectly well."

All those who suffer from weak, aching backs, those whose muscles are stiff, whose joints are swollen, let them try Nervine—the liniment that never fails—35c at all dealers.

**Spilled It All!**  
Just about the time the scientists became hopeful of being able to prolong the span of human life, the automobile was invented.

Granite is called the Mother Rock because it is the lowest rank in the earth's crust. Granite shows no evidence of animal or plant life.

**MURINE**  
For Your Eyes  
Refreshes Tired Eyes  
Write to us, Chicago, for a free book.

## Children Cry for

**Fletcher's CASTORIA**

MOTHER—Fletcher's Castoria is a pleasant, harmless substitute for Castor Oil, Purgative, Teething Drops and Soothing Syrup, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. From directions on each package. Physicians everywhere recommend it.

## Supremacy Of The Air

New British Seaplane is Capable of Great Speed  
The Napier S-1 which is the latest seaplane built at Southampton for the British navy in the Schneider air race at Baltimore, is now ready for shipment to the United States. The utmost secrecy is still preserved, but it is capable of speed of considerably more than four miles a minute. The machine has monoplane wings built of one piece and no fabric is used, the only materials being metal and wood. The propellers are metal and the design throughout is entirely novel. The British hope not only to win the cup but to gain definite air superiority.

## BEAUTIFY IT WITH

"DIAMOND DYES"  
Just Dip to Tint or Boil to Dye

Each 15-cent package contains directions for simple and easy use. Dye in shades of red, pink, blue, green, yellow, orange, brown, black, and white. Dyes silk, ribbons, skirts, waists, dresses, sweaters, draperies, coverings, hangings, everything.

Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk or whether it is linen, cotton or mixed goods.

**Thief Returns Valuable Watch**  
A year ago, burglars entered the home of E. E. De Bower, Chicago, president of the American Academy of Letters, through a window and stole jewelry, including a specially made \$500 wrist watch that enabled Mrs. De Bower, who is blind, to tell the time. There was said to be only one other watch like it in Chicago. The other night the same window was raised and a package pushed through. It contained the watch and this note: "Yen Concoris is dead, was you to have this and pray for him. His pal."

**For COLIC AND CRAMPS PAINS IN THE STOMACH There's Nothing Equals**

**DEFOULERS EXT. OF WILD STRAWBERRY**  
It has been in use for over 80 years; its action is pleasant, rapid, reliable and effective, and relieves constipation.  
"Don't accept a substitute." The genuine is made up only by The T. Millburn Co., Limited, Toronto, Ont.

**A Tale Of Shipwreck**  
Bottle Message of Tragic Import Is Found After Many Months  
On a little island in the center of the Indian Ocean, far from the steamship lanes, may be lying the bones of five seamen, saved from destruction when the Mary A. Holling, of Philadelphia, was wrecked in a storm on March 18, 1924, according to a dispatch from Brussels.

A nurse at a sanatorium at Brezence, near Oxford, found in a bottle containing the following message: "Sailor ship Mary A. Holling, from Philadelphia, wrecked in storm March 18, known latitude 32 east, longitude 10 south. Five were saved but will starve unless somebody come soon. Please notify grandfather, P. S. Woods, 4103 Walnut Street, Philadelphia. For God's sake hurry."  
The bottle, with its message of hope, travelled many thousands of miles before it was picked up in Belgium.

**A Corrector of Pulmonary Troubles.**  
Many testimonials could be given showing the great efficacy of Dr. Thomas' Electric Oil in correcting disorders of the respiratory tract, but the best testimonial is experience and the Oil is recommended to all who suffer from these disorders with the certainty that they will find relief. It will allay inflammation in the bronchial tubes.

In England wedding rings, of cheapened gold, are being worn by the married girls, who imagine either that the sight of the ring attracts men, or that the wedding ring protects them in public.

W. N. U. 1926

**DR. HAMILTON'S PILLS**  
FOR HEADACHE, BILIOUSNESS, CONSTIPATION, INDIGESTION, KIDNEYS, LIVER, BOWELS.

## What Is Evaporated Milk?

Interesting Information Regarding This Important Article of Diet  
While the use of evaporated milk is general all over Canada, occasionally the dairy is made. "What Is Evaporated Milk?" "Evaporated Milk is nothing but fresh milk from which part of the water has been removed by evaporation. (Fresh milk is 87 per cent water. Nothing is added to it. Nothing but water is taken from it. This concentration makes it more than twice as rich as ordinary milk. After it is thus concentrated it is put in air-tight containers, sterilized and marketed by the grocery, the manufacturer, putting his brand on it, as Borden's B. C. Charles Milk, for example. Milk is fresh unless it has been subjected to attack by the bacteria which destroy its freshness. (Milk, when it comes from the cow, is exposed to the air and therefore subject to bacterial contamination.) In the course of time the numbers of such bacteria increase and their action on the milk destroys its freshness. When milk becomes sour it is because the lactic acid bacteria have attacked the milk in such numbers and for such time as to develop the lactic acid that makes it sour. Evaporated Milk is concentrated in place in the country within a few hours after it comes from the cow, the Borden Company, for instance, operating large condensaries at such dairy centres as Truro, M.S., Ingersoll, and Norwich, Ontario, and South Yarmouth, B.C. The milk is put into air-tight containers and sterilized. By sterilization all bacteria are destroyed. The attack of such bacteria is absolutely stopped. No further bacteria can get into it. The sealed container brings the milk to the consumer as fresh and sweet as when it came to the country plants. It will keep fresh and sweet on the pantry shelf until the can is opened and, put in a cool place, will then keep even much longer after opening than bottled milk after it is delivered to the home.

Painless and perfect in their action, Miller's Worm Powders are always a safe and reliable remedy for children. Show symptoms of worms. Children's symptoms are easily recognizable in a few cases. In others, frequently, the parents are not aware of the trouble. It is in that latter case that Miller's Worm Powders have expelled the worms, the stomach and bowels are toned up into a very healthy condition.

**Record For Wakefulness**  
What is believed to be the world's record for continued wakefulness was established in London recently by two experimenters, who remained awake for five days and four nights, in order that a study of the effects of long lack of sleep upon the body might be made.

## SUNDAY SCHOOL LESSON

OCTOBER 4  
PAUL IN ATHENS  
Golden Text: In him we live, and move, and have our being. Acts 17:28.  
Lesson: Acts 17:16-34.  
Devotional Reading: Psalm 137:1-12.

The Text Explained and Illuminated  
Paul's Occupation At Athens, verses 13-17. While Paul awaited the coming of Silas and Timothy (see The Historical Background), his spirit was provoked within him as he beheld the city full of idols. To the cultured Athenians these idols were only objects of art, but to the ignorant they were gods.

A good criterion of a man's character may be gained from the knowledge of the things which stir his soul.  
Paul preached in the synagogue to the Jews and proselytes, and also reasoned in the marketplace every day with them that met him. In this he was like Socrates, who was wont to stop his conversations and by cross-examination try to arouse in them a desire for better things.

Paul preached in the synagogue to the Jews and proselytes, and also reasoned in the marketplace every day with them that met him. In this he was like Socrates, who was wont to stop his conversations and by cross-examination try to arouse in them a desire for better things.

## NATURE'S WARNINGS

Danger Signals That Everyone Should Take Seriously  
"Nature's warnings that something is wrong with the body." Indigestion, for instance, is characterized by a feeling of fullness in the stomach, and often about the heart; rheumatism by sharp pains in the limbs and muscles; a headache a sign that the nerves or stomach are out of order. In some ailments, such as anæmia, the pain is so pronounced. In this case Nature's warning takes the form of pallor, breathlessness after slight exertion, palpitation of the heart, and loss of appetite. Whatever form these warnings take, wise people will not disregard the fact that many diseases have their origin in poor blood, and that when the blood is enriched the troubles disappear. Dr. Williams' Pink Pills are most helpful in such cases because they purify and build up the blood to its normal strength. In this way it tones up the nerves, restores the appetite and gives perfect health. Hiram Terrill, of Annapolis, Md., has proved the great value of this medicine and says: "I am a young girl and have been working in a factory for the past four years. For two years I had been in such poor health that at times I could not work. I was thin and pale, and troubled with headaches and fainting spells. I do not recall nearly all this time, but I did not help me. My mother advised me to take Dr. Williams' Pink Pills, and after using them for a while I could notice an improvement in my condition. I used nine boxes and can truthfully say that my health is restored. When I began taking the pills I lost 150 pounds and now I weigh 114. I feel that I owe my good health to Dr. Williams' Pink Pills and hope other suffering people will give them a fair trial."

You can get these pills through any medicine dealer or by mail at 50c each a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**Makes Good Impression**  
J. H. Woods, of Calgary, Receives Rousing Reception in New Zealand.  
A wonderful impression was made on the people of New Zealand by J. H. Woods, president of the Canadian Press and a delegate to the Imperial Press conference now being held in Australia.

"He is the best speaker of the delegation," states a New Zealander, in a private letter received from Auckland. "At the New Zealand Government Banquet to the delegates, Mr. Woods' speech 'about the building, and men leaped from their seats to cheer,' the writer adds.

When Asthma Comes do not despair. Turn at once to the help effective Dr. J. D. Kellogg's Asthma Remedy. This wonderful remedy will give you the cure you need so sorely. Coughing, gasping, breathing become natural and without effort. Others, thousands of them, have suffered from this terrible disease and ceased to suffer. Get a package this very day.

**Biggest Rose Bush**  
Just outside of Alhambra, Cal., the largest rose bush in the world is blooming. The tree is 50 years old and is more than four feet in circumference at the bottom and the vines have reached a length of 125 feet.

Many have been relieved of corns by Holloway's Corn Remover. It has a power of 145 ova that will be found effective.

## Says Adam Died Of Gout

Adam died of the gout, says an ancient document held by the Herald's College, at London. The document, the origin of which is unknown, which was written in the sixteenth century, professes to trace the genealogy of the Saxon kings back to Adam and Eve.

Adam succumbed to the "gout," it is declared, and was buried in Hebron. Whether, if he had continued to eat an apple a day, he would have kept the doctor away is not mentioned.

50¢ a box  
At all druggists

## MOSUL QUESTION IS CAUSE OF GRAVE CONCERN

Geneva.—The Mosul question has become a cause of grave concern during a dramatic session of the council of the league, which M. Loucheur, as president, hastily adjourned after an outburst of disapproval from those present against the attitude of Rashid Bey, head of the Turkish delegation, on the question of the deportation of Christians.

The committee of the council had introduced a resolution, which substantially was unanimously approved, authorizing the dispatch of a special league commissioner to the Mosul area to examine the British charges that Christian Chaldeans were being ill-treated and killed by the Turks, the Turkish counter-charge that the British had occupied points held by Turkey, and, in general way, to keep the council informed of any incidents liable to endanger peace.

Colonel Amery, British secretary for the dominions, insisted that the commissioner should not only have the right to pursue his investigation south of the Taurus line, which is occupied by the British, but also in the narrow Mosul strip north of that line occupied by the Turks.

### Strike Trouble Looms

British Prime Minister Takes Sides With Mine Owners

London.—The British prime minister, Stanley Baldwin, has taken sides with the mine owners against the Miners' Federation in the dispute between the miners and operators over the wage question. "A two days' conference between the prime minister and the miners' executive at Number 10 Downing Street, failed to bring about a settlement."

After the conference, A. J. Cook, secretary of the Miners' Federation, announcing the deadlock, declared that his colleagues would take no part in the next conference, pending the decision of a delegate conference, which should meet October 9. The miners, he added, would appeal to the whole labor movement to stand by them as they did in July, to see that the miners' wages were not reduced.

The details of the dispute between the parties are somewhat complicated, but Premier Baldwin's attitude will enable the mine owners to reduce wages in certain districts in a manner the miners contend is a violation of the agreement upon which the governmental subsidy was granted. This subsidy took the form of a "subsidy" to the mines nearly two months ago, which would enable the owners to continue their existing wage agreements for another six months. The miners' leaders declare there is danger that the issue will be upset.

### Conclave On Disarmament

League of Nations Is Making Preparations For Conference

Geneva.—Confirming the plans of the leaders, the League of Nations Assembly, in plenary sessions of the commission, laid the foundations of future international disarmament and economic conferences.

The disarmament commission adopted a resolution whereby the league council will make a preparatory study for a conference for reduction and limitation of armaments, so that as soon as general security has been achieved a conference will be convoked in order that "a general reduction and limitation of armaments may be realized."

Commander Opposed Flight

Lakehurst, N.J.—The Shenandoah was ordered on her final flight to the west, September 2, in spite of recommendations of Lieut. Commander Zachary Lansdowne that the trip be deferred until the second week of September. This is shown by official documents read into the records of the naval court of inquiry by Captain George Steele, Jr., commander of the Lakehurst air station.

Ladies Saved Livestock

Regina.—All the livestock on the farm of M. McIntyre, six miles east of here, were saved by ladies who were alone on the farm when the barn caught fire at 4:30 Monday afternoon. Feed and implements, as well as the barn itself were destroyed. The loss is covered by insurance.

Canada Australia Pact

Melbourne.—The Commonwealth Gazette proclaims that the reciprocal commercial treaty between Canada and Australia will come into operation on October 1.

W. N. U. 1566

## Saskatchewan Press Annual Convention

Weekly Newspapersmen to Meet at Regina on Nov. 5th and 6th

Regina.—The annual convention of the Saskatchewan Division of the Canadian Weekly Newspapers Association will be held in Regina on Thursday and Friday, November 5th and 6th. A record attendance is expected. The members will assemble in the Council Chamber of the City Hall, Regina, at 10 o'clock on Thursday morning and at 11 o'clock the Board of Trade will supply automobiles for a drive around the city. The editors and their wives will all be guests of the Saskatchewan Press Association. At 3 o'clock p.m., and at 3 p.m. the convention will be officially opened in the Council Chamber of the City Hall by His Worship, W. E. Mason, Mayor of Regina. Reports of the President and the Secretary-Treasurer will be received, and resolutions and nominating committees will be appointed.

At 6:30 p.m. the editors will be the guests of The Leader Publishing Company at dinner and at 8:30 p.m. they will be the guests of the Regina Typo Foundry Co. at a theatre party. On Friday morning at 9 o'clock the convention will assemble in the Council Chamber and a forum on "News and Editorial" will be conducted by Mr. Sam Moore of the Swift Current Sun. At 10 o'clock a forum on "Job Opportunities," chairman, E. N. Carter, of Wilkie, and at 11 o'clock a forum on "Subscriptions and How to Get Them," chairman to be named. In the afternoon there will be a forum on "Press Publicity," chairman, H. G. Sheldrake, North Battleford and also a forum on "Foreign and Local Advertising," chairman, Mr. S. J. Doran, of Alameda, after which the reports of committees will be read and the election of officers takes place.

At 6:30 o'clock there will be a banquet given by the Saskatchewan Division of the Canadian Weekly Newspapers Association with leading citizens of the province and city of Regina as guests. During the afternoon the ladies attending the convention will be the guests of the Provincial Chapter of the Daughters of the Empire at a tea arranged in their honor.

### Says Cassair Field

Is Second Klondyke

Editor of Alaska Weekly Predicts Early Development

Seattle.—The Cassair mining district in British Columbia, lying across the Canadian border from Alaska, is due to take the place of the Klondyke in the course of the next few years, in the opinion of Frank J. Cassair, editor of the Alaska Weekly, who has just returned here after a four months' trip into that district. "I make this statement after a four months' tour of the entire district," he said, "which is unquestionably the most beautiful and fertile to be found to the north of Seattle."

"The showing that the country is able to make with the extremely limited equipment now available is surprising. And it will be even more surprising when the big strike comes because in that time the mining camps all will be equipped with the most modern machinery."

"A couple weeks ago, just before coming out, I was on Discovery Gold Peak Creek and saw the big haul made in gold. It was all yellow, nuggets and gold, and enough to make a full pack for a strong man."

### Many Canadians Return

Thousands Are Now Plying Back to Canada From U. S.

Ottawa.—Immigration to Canada for the first four months of the fiscal year ended July 31 amounted to a total of 46,626, of which 12,217 were British, 8,874 from the United States, and 14,535 from other countries. In the same period, 12,170 Canadians who had been absent in the United States six months and over, returned to Canada with the intention of making their permanent residence in this country.

The total number of Canadians who have returned from the United States since April 1, 1924, after settling in that country six months and longer, and now with the intention of remaining permanently in Canada, is 55,945.

### Tourist Traffic Still Heavy

Regina.—G. D. Brophy, district passenger agent of the C.P.R., who has returned to his city from a holiday trip in the Rocky Mountains, reports that the tourist traffic is still very heavy throughout the prairies and in the mountains, and that it has been greater this year than ever before. At this time of the year the hotels at Banff and Lake Louise are usually nearly deserted, but this year both have a daily average of between 150 and 175 guests.

## Bidding For British Trade

Empire Committee Will Be Invited To Visit Canada

Toronto.—The problems that await solution in placing on the markets of Great Britain, Canadian produce on a scale far greater than has heretofore been attempted were discussed at length at the Ontario Parliament Buildings, when representatives from other provinces conferred with the agricultural inquiry committee of the Ontario Legislature.

Various aspects of the situation, as related to different kinds of produce, were gone into, and before the conference closed a resolution was passed requesting that at the earliest possible date, members of the executive of the Imperial economic committee should be invited to Canada to consult with representatives, both provincial and co-operative, of the agricultural industry, and that the arrangements necessary be made by the federal department of agriculture.

Hon. Dr. Jamieson, chairman of the agricultural committee, occupied the chair, and Miss John P. Morris, minister of agriculture, welcomed the representatives, expressing at the same time the opinion that Canada was not keeping pace with other countries in capturing British trade.

## DELEGATES FROM MANY LANDS TO MEET AT OTTAWA

Ottawa.—The meeting here on October 13 of the inter-parliamentary union will bring to Canada a most distinguished body. There will be coming here from Europe and Asia four hundred delegates, representing thirty-nine nations.

Among them are many of the most prominent statesmen of Europe. The union is to meet for five or six days in Washington, and conclude with a plenary meeting of one day in Ottawa. Two objects which have been reserved for discussion here are the rights of minorities and the suppression of narcotic drugs.

The inter-parliamentary union was founded twenty-three years ago, for the purpose of promoting world peace and closer international relations. Since the formation of the League of Nations it has worked in close operation with that body. Its membership is composed entirely of parliamentary representatives, and is divided into national groups forming the general body of the union.

### Harvesting Alberta

Sugar Beets

Seven Thousand Acres Will Yield About 75,000 Tons

Lethbridge.—Sugar beet harvesting in Southern Alberta started Sept. 25 and digging has become general.

Seven thousand acres of beets will yield in the neighborhood of 75,000 tons for the new factory of the Canadian Sugar Refineries, Limited, at Raymond. The factory is capable of handling one thousand tons daily. The big mill has been tested out and is expected to be running full blast by October 10, when 250 men will be employed. The product of the factory will go out under the trade name of Crestal.

### Will Fund Debt to States

Washington.—The Czechoslovakian Government formally notified the United States debt commission that a commission called from Chebourn, September 26 to fund the Czechoslovakian debt to the United States. The United States Government claims an indebtedness of approximately \$17,000,000 while Czechoslovakia has insisted that not all of this is directly chargeable against her.

### Would Build Elevator

Ottawa.—Application for a site on which to construct an elevator at Victoria, B.C., has been filed at the department of marine and fisheries by Valentine Quinn, of Vancouver. The proposed elevator, it is understood, would be used in connection with the handling of grain. Decision in the matter is hardly probable. It is stated, before that and of the present month.

### American Agricultural Editors Touring Dominion

The above picture shows the party of Agricultural Editors from the United States now touring Canada to study farming methods and the agricultural situation here. They are the guests of the department of immigration and colonization of the Canadian Pacific Railway.

## WESTERN FUNDS AVAILABLE FOR H. B. RAILWAY

Winipeg.—The following story appears in the news columns of the Winnipeg Free Press:

"If the Dominion Government will hand over the Hudson's Bay Railway as it now stands, from Hudson Bay Junction to Port Nelson, along with any improvements that have been made in shipping facilities, a Winnipeg-St. Boniface syndicate will finish the road with private capital, according to an offer now before Hon. G. P. Graham, minister of railways."

"The syndicate has offered to put up a million dollars as a guarantee of its good faith. The road would be finished within two years of the signing of the contract."

"The syndicate seeks the following from the government:

"(1) Water power rights on the Nelson River to develop electric power to operate trains."

"(2) A four-year agreement for running rights over the Canadian National Railway tracks from Winnipeg, Portage la Prairie, or Brandon to Hudson Bay Junction."

"(3) The right to change the terminus to Fort Churchill, if thought advisable."

"The syndicate offers to provide a railway pier at the terminus at which vessels drawing 25 feet of water would be able to load safely, or discharge cargo."

"Winnipeg grain interests are said to be interested in the syndicate which has had a man at Ottawa during the last week to press the application."

### Want Early Settlement

Chinese Government Opposes British Probe Into Shanghai Affair

Peking.—The Chinese Government, replying to a British note of September 1, opposes a judicial inquiry into the Shanghai affair of May 30, and charges that the British proposal for such an inquiry has delayed settlement of the incident. Several Chinese were shot by police of the international settlement of Shanghai on May 30, during a demonstration in favor of striking employees of Japanese cotton mills.

The Chinese note expresses the opinion that since the facts of the Shanghai affair already have been jointly investigated by delegates of the Peking diplomatic body and dismissed at several conferences, appropriate action at the present juncture would be to utilize the findings of these delegates, together with the report of Chinese delegates, as a basis and start negotiations forthwith with a view to securing an equitable solution at an early date.

### Big Coal Loadings

Winnipeg.—As an indication of the revival of business throughout the west, figures showing the purchase of coal for domestic consumption and general commercial uses, are made available. One day recently there was loaded on western lines of the Canadian Pacific Railway, six thousand and seventy-eight tons of commercial coal, as against one thousand four hundred and ninety-eight tons on the same day last year.

### Would Build Elevator

Ottawa.—Application for a site on which to construct an elevator at Victoria, B.C., has been filed at the department of marine and fisheries by Valentine Quinn, of Vancouver. The proposed elevator, it is understood, would be used in connection with the handling of grain. Decision in the matter is hardly probable. It is stated, before that and of the present month.

The proposed elevator, it is understood, would be used in connection with the handling of grain. Decision in the matter is hardly probable. It is stated, before that and of the present month.

## Orient Prefers Canadian Wheat

Japan Has Purchased 150,000 Tons of This Year's Crop

Vancouver.—Considering the seriousness of the financial situation in Japan, Canada's trade prospects in that country are excellent, according to A. B. Bryan, newly appointed inspector of foreign trade for Canada, who for many years has been trade commissioner for the Dominion in Japan. Mr. Bryan arrived from the Orient on his way to Ottawa.

"Japan already has purchased 150,000 tons of Canadian wheat from the present crop," stated Mr. Bryan. "This is about three times the tonnage purchased last year and will keep the Japanese flour mills operating until December when the Australian grain-aids on the market. Whether or not the Australian wheat will because of its cheaper price, shut out further heavy buying, is unknown, but Canadian wheat is gaining a marked preference because of its superior quality."

Canadian grain interests need not have any fear of Siberian wheat in the opinion of Mr. Bryan, who says the crops in that country have again failed and many farmers of Siberia and Manchuria have given up the idea of further wheat cultivation.

## Saskatchewan Appeals To Russian Prince

Is Considering Purchase of Farm Land in Province

Regina.—Prince Vianovicki, member of an old Russian family and formerly a member of the Imperial Council of Russia under the Czarist regime, is in Saskatchewan, considering the purchase of land and the carrying on of farming operations.

Of enormous stature and of impressive appearance, Prince Vianovicki, was driven from his country by other nobles when the Bolsheviks assumed power. His estates, residences and much of his other property was confiscated, but he escaped from his country.

Though familiar with conditions in Eastern Europe, the Prince is uncommittal, and prefers to discuss matters in connection with the country in which he now proposes to settle.

Strike Affects Railways

New York.—Here is the effect of the anthracite coal strike upon United States railways, according to an estimate by railroad officials published.

Nine railroads serving the anthracite district are losing \$5,000,000 a week in revenue.

Fifteen thousand railway men have been laid off.

Carloadings have fallen off 40,000 cars a week.

## BRITAIN TAKES STEPS TO CURB RED CAMPAIGN

London.—The persistent outcry of a section of the press and the public for stringent measures against communists and other "red" propagandists and agitators, who allegedly long have been stirring up unrest among the British workers, and trying to sow a malignant spirit in the army and navy, seems to have borne fruit and induced the government to take steps in the direction demanded.

"The offenders have been numerous, and it is reported that a general round up of them will take place in a few days. It is said the government already had decided to deport about fifty foreign Reds already involved in mischievous propaganda."

As an outgrowth of several conferences between the home office officials and the chiefs at Scotland Yard, orders have been given for an energetic campaign to remove the offenders, many of whom are foreigners. The police in the big provincial cities have been called upon to co-operate with the Scotland Yard men. The eyes of the police are to be focused on "Reds" of British nationality who are asserted to be working for pay in the interests of the Bolsheviks.

### Executing Chinese Robbers

Shanghai.—Twelve convicted Chinese robbers were executed publicly after a parade of the condemned. The parade and the hangings were witnessed by thousands. The executions will continue at the rate of six daily until 180 condemned men have been executed in accordance with the death sentences handed down by mixed courts.

### Warships On Cruise

San Pedro, Calif.—The British cruiser Cape Town and Canadian destroyer Puritan, have left here for San Diego. They are scheduled to remain here a day before the cruiser continues on to the Brazil coast, where she is scheduled to arrive October 8, and the Puritan to leave for Esquimaut.

### Enterprising Farmer Makes \$3,000

Lakehurst, N.J.—An Ohio farmer on whose property a part of the wreck-age of the airship Shenandoah fell, took the day's loss during the night, took \$5,000 in admission charges to tourists and for soft drink concessions.

### Memorial For Sir Adam Beck

New Glasgow, Ont.—The municipal council of the township of Wilnot has decided to erect a memorial to the late Sir Adam Beck, in the village of Haden, Ont. Sir Adam's birthplace.

## NEW DIRECTOR OF IMMIGRATION IS APPOINTED

Ottawa.—Announcement is made of the appointment of J. Bruce Walker, formerly of Winnipeg, to be director of European emigration for Canada in London, succeeding W. R. Little, who went to England in March, 1924, to reorganize the machinery of the department of immigration and colonization in Britain and Ireland, the Irish Free States and Europe. Having completed his task, Mr. Little will shortly return to Canada to become commissioner of colonization for the department of immigration and colonization.

Mr. Walker has had long experience in immigration and colonization work both in Canada, the United States and the British Isles. A former newspaper man, editor of the Brandon Exporter, he was sent to Scotland in the regime of Sir Clifford Sifton, as commissioner of emigration. His responsibilities were rapidly increased with the field of his operation covered Europe. Later he was transferred to Winnipeg, where for nearly 20 years, during which period the largest settlement in Western Canada took place, he was commissioner of immigration.

Germany Accepts Allies' Invitation

Delegates Will Attend the Conference on Security Pact

Berlin.—The cabinet council, under the chairmanship of President Von Hindenburg, accepted the allies' invitation to a security pact conference, on the assumption that the German note of July 20 will be adopted as the basis of the negotiations.

The note maintained Germany's right to strive for revision of the peace-treaties to meet changed circumstances.

Chancellor Luther and Foreign Minister Stresemann will be the German delegates to the conference, with Dr. Friedrich Gaus, chief legal expert of the foreign office, as secretary general.

### Strike Affects Railways

New York.—Here is the effect of the

anthracite coal strike upon United States railways, according to an estimate by railroad officials published.

Nine railroads serving the anthracite district are losing \$5,000,000 a week in revenue.

Fifteen thousand railway men have been laid off.

Carloadings have fallen off 40,000 cars a week.

### Britain Takes Steps to Curb Red Campaign

London.—The persistent outcry of a section of the press and the public for stringent measures against communists and other "red" propagandists and agitators, who allegedly long have been stirring up unrest among the British workers, and trying to sow a malignant spirit in the army and navy, seems to have borne fruit and induced the government to take steps in the direction demanded.

"The offenders have been numerous, and it is reported that a general round up of them will take place in a few days. It is said the government already had decided to deport about fifty foreign Reds already involved in mischievous propaganda."

As an outgrowth of several conferences between the home office officials and the chiefs at Scotland Yard, orders have been given for an energetic campaign to remove the offenders, many of whom are foreigners. The police in the big provincial cities have been called upon to co-operate with the Scotland Yard men. The eyes of the police are to be focused on "Reds" of British nationality who are asserted to be working for pay in the interests of the Bolsheviks.

### Would Build Elevator

Ottawa.—Application for a site on which to construct an elevator at Victoria, B.C., has been filed at the department of marine and fisheries by Valentine Quinn, of Vancouver. The proposed elevator, it is understood, would be used in connection with the handling of grain. Decision in the matter is hardly probable. It is stated, before that and of the present month.

## Stop and Think!

Canada and the United States  
 lose \$500,000,000 per year  
 in fire waste. Every day  
 there are:

One hospital fire.  
 Three printing plant fires.  
 Four warehouse fires.  
 Five church fires.  
 Six school fires.  
 Six departmental store fires.  
 Eight public garage fires.  
 Fifteen hotel fires.  
 Three hundred and fifty-nine  
 dwelling fires.  
 Fire insurance saves nothing  
 —it merely distributes the  
 loss.  
 Fire protection saves some-  
 thing—at a high cost of up-  
 keep.  
 Fire prevention saves all—at  
 little or no cost.

## Items of Local and General Interest

Probably it's the heat that causes  
 so many to get married in June.

The Rev. W. J. Merrick, of Mac-  
 leod, is visiting Blairmore on church  
 business.

Mrs. L. L. Morgan and Mrs. G. A.  
 Vissac have returned from a visit to  
 the Pacific coast.

A Brunetto is erecting a large  
 dwelling adjoining his brick store on  
 Main Street south.

The Canadian Oils, Limited, expect  
 to have their oil storage tank erected  
 here in the course of the next two  
 weeks.

The Pythian Sisters are holding a  
 sale of fancy goods, aprons, etc., on  
 the third Wednesday in November,  
 the 15th.

Mrs. Grier, of Calgary, is at the  
 Cosmopolitan with a full line of  
 ladies' and children's fall dresses and  
 millinery.

Mrs. Fied Palmer is spending a  
 few days at Granum, where she went  
 to attend the funeral of her nephew,  
 Robert Schram.

A fat young girl of the flapper  
 class was asked what made the tower  
 of Pisa lean. She replied: "Don't  
 know, or I'd take some of it."

Kelly says: "Lord Buckmaster is  
 now in Canada, for the purpose of  
 proposing conciliatory terms between  
 the Blairmore (school) board and teach-  
 ers."

Constable Munton, A.P.P., has re-  
 turned from Drumheller, where he  
 had been assigned special duties for  
 a few weeks during the miners' troubles.

Mr. and Mrs. John Roberts, for-  
 merly of Bellevue, but who for the  
 last eight or nine years have resided  
 at Cadomin, were visitors here during  
 the week.

The new July, 1925, issue of the  
 local district telephone directory is  
 now being distributed. Subscribers  
 who have not yet received one would  
 do well to call at the local exchange.

So far only one body has been re-  
 covered from the hull of the submarine  
 S-51, sunk by the steamer City of  
 Rome off the New England coast.  
 Thirty-seven men went down with the  
 sub.

The many friends of Miss Evelyn  
 Storey, former girls' work secretary  
 for Alberta, will be interested in  
 hearing that she has left for Vancou-  
 ver, where she will enter the Univer-  
 sity of British Columbia for post-  
 graduate study.

The Cannore Coal Company, Lim-  
 ited, is at present erecting a modern  
 briquetting plant at Cannore, which,  
 when completed, will have a capacity  
 of 100 tons per eight-hour shift, and,  
 as it will be possible to operate the  
 plant for two or even three shifts  
 daily, it will have an actual produ-  
 cing capacity of 400 tons per twenty-  
 four-hour day.

NOTICE TO CREDITORS  
AND CLAIMANTS

IN THE MATTER OF THE ESTATE  
 OF GEORGE JAPP, late of the  
 Village of Hillcrest, Miner, de-  
 ceased.

NOTICE is hereby given that all  
 persons having claims on the estate  
 of the said George Japp, who died on  
 the 18th day of August, 1925, are re-  
 quired to file with the undersigned  
 Administrator of his Estate by the  
 10th day of November, 1925, a full  
 statement duly verified, of their  
 claims and any securities held by  
 them, and that after that date the  
 Administrator will distribute the  
 assets of the deceased among the par-  
 ties entitled thereto, having regard  
 only to the claims of which notice  
 has been so filed or brought to his  
 knowledge.

DATED this 30th day of September,  
 1925.  
**THE TRUSTS AND GUARANTEE  
 COMPANY LIMITED**  
 Public Administrator  
 220 Eighth Avenue West,  
 Calgary, Alberta, Canada.  
 H. A. HOWARD, Manager.

Women no longer take a broken en-  
 gagement to heart—they take it to  
 court.

A large furnace and heating sys-  
 tem has been installed in the Leth-  
 bridge arena.

Why didn't we think of it before!  
 The way to stop crime is to reduce  
 the number of criminals.

H. C. Dillingham has disposed of  
 The Inland Province to an Edmon-  
 ton newspaper man.

Miss E. M. Fulton is spending this  
 week and with her sister, Mrs. H. C.  
 Morrison, at Cowley.

Italy's great problem is to dispose  
 of her surplus population. Why not  
 try turning them loose in Chicago?

Mar Poy, who recently sold out his  
 restaurant business here, has pur-  
 chased a similar business at Vulcan.

Mr. J. L. Parker, of Lee Lake  
 Ranch, who had been confined to his  
 home for a week or more through ill-  
 ness, is able to be around again.

The new United church at Pincher  
 Creek will be dedicated on Sunday  
 next. Rev. Dr. George W. Kerby, of  
 Mount Royal College, Calgary, will  
 officiate.

Livingstone Lodge No. 22, Knights  
 of Pythias, are holding a whist drive  
 and social on Friday, October 30th.  
 Six good prizes. Big time for every-  
 body. Come.

Fred Anderson, who late in August  
 underwent a critical operation in Ed-  
 monton hospital and has been a pa-  
 tient there ever since, returned home  
 to Blairmore yesterday.

At a recent sales conference a man  
 asked: "What do you think of a man  
 who will deceive his wife constantly?"

The reply was: "I think he's a won-  
 der."

A crope purse dress dance will be  
 held in the Burma schoolhouse on the  
 night of Friday, October 9th, the  
 proceeds to go to the piano fund.  
 Madam Jones' orchestra will furnish  
 the music.

At a meeting of the G.W.V.A. held  
 on Sunday afternoon, it was decided  
 to purchase some gymnasium equip-  
 ment to the value of \$35 and to do-  
 nate same to the boys club of the  
 United church.

Owing to the indisposition of the  
 pastor, Rev. W. T. Young, the service  
 at the United church on Sunday even-  
 ing last was taken by Mr. John She-  
 vels, of Bellevue. Mr. Shevels deliv-  
 ered a forceful and thoughtful address.

Mrs. Blanche Harper is substitut-  
 ing at the local school for Miss Cray-  
 stal, the thirteenth appointment made  
 to replace the Blairmore staff of Al-  
 liance members. Miss Craystal, after  
 being appointed, notified the board  
 that she would be unable to assume  
 duties here until she had served thirty  
 days following her notice to the board  
 she was already working for.

General Change  
in  
TRAIN SERVICE

Effective Sunday,  
 September 27th, 1925

Times for Trains at Blairmore will be  
**WESTBOUND EASTBOUND**  
 No. 67, 8:15 a.m. No. 68, 10:45 p.m.  
 Daily

No. 635 Mon. Wed. Fri. No. 636 Tue. Thur. Sat.  
 2:55 p.m. 10:03 a.m.

**TRANS-CANADA LIMITED** has  
 been withdrawn.  
**THE MOUNTAINEER**, Trains Nos.  
 13 and 14, between Chicago and  
 Vancouver, will be withdrawn last  
 through train passing Calgary  
 Westbound September 22nd, and  
 Eastbound September 25th.

For further particulars, apply to any  
 Ticket Agent, or  
**J. E. PROCTOR**  
 District Passenger Agent  
 CALGARY

Charles S. Fringle, Liberal, is lead-  
 ing in the Medicine Hat bye-election  
 count.

About four hundred people greet-  
 ed "The Mikado" at the opera house  
 on Monday night.

Thomas Longworth, of the depart-  
 ment of the Liquor Control Board, is  
 in The Pass this week.

Miss Agnes Marquis left Wednes-  
 day morning on a brief holiday trip  
 as far as Portland, Oregon.

Local Oddfellows will hold their  
 annual ball on the night of Friday,  
 October 16th, at the opera house.

Drumheller is to have a \$20,000  
 closed-in arena, and two thousand ten-  
 dollar shares will be sold to finance  
 the proposition.

A man named Pete Hansen had his  
 head cut off just above the ears by  
 the closing of the automatic dumping  
 bottom of a gravel car.

A meeting of rural degeneries of  
 Macleod, High River and Lethbridge,  
 was held at Lethbridge yesterday.  
 Rev. H. L. Nobbs was in attendance.

Now that the post office has been  
 placed in a satisfactory position, a  
 movement is on foot to have the cus-  
 toms office occupy part of the same  
 building.

The members of Vimy Chapter, O.  
 E.S., are holding a whist drive and  
 social in the Lodge Hall on Wednes-  
 day evening, October 7th. Good  
 prizes. Everybody welcome.

It pays to advertise. A local mer-  
 chant hung up a sign on his door on  
 Saturday morning last, worded  
 "KEEP OUT," and states that that  
 day's business was his biggest for  
 sixteen years.

The local Pythian Sisters will hold  
 a "Measuring Party" in the Lodge  
 Hall, following their regular meeting  
 tomorrow night. This being some-  
 what a novel feature, a large attend-  
 ance is expected.

Among the prisoners arraigned be-  
 fore the court was an Irishman. "Are  
 you guilty or not guilty?" asked the  
 judge in a stern voice. "Faith, an'  
 it's yer honor's business to decide that," replied Pat.

Although we had added one hun-  
 dred extra copies to our last week's  
 edition, we were unable to supply  
 thirty-two new Coleman subscribers.  
 They will receive their copies regu-  
 larly, commencing this week.

Mr. Bradley, who for about a year  
 has been in the employ of the pro-  
 vincial department of public works  
 as roads engineer in this district, has  
 returned to resume studies at the  
 University of Alberta. Mr. Bradley  
 is succeeded here by Mr. E. D. Lan-  
 kins, of Edmonton.

 er in good order; if suitable will prob-  
 ably buy. Apply The Enterprise.

Nanton Elks will build a commu-  
 nity hall to cost in the neighborhood  
 of seven thousand dollars.

Mrs. Johnson, widow of the late M.  
 L. for Medicine Hat, was a recent  
 visitor with friends in this district.

Alex. Walker, president of the pro-  
 vincial command of the G.W.V.A., was  
 in town from Calgary over Sunday  
 and attended the reorganization meet-  
 ing of the local G.W.V.A.

A large audience greeted Dr. J. W.  
 Litch at the United church on Thurs-  
 day night last. Dr. Litch is ever popu-  
 lar as a platform orator and his  
 message on Thursday night last was  
 well received.

EVERY CRUST AND CRUMB OF

IT IS GOOD FOR YOU

Bread is a food that deserves to be  
 eaten to the last crumb. It has such  
 a big measure of nourishment in it.

Snowy slices of Bread are thorough-  
 ly satisfying for breakfast, dinner  
 and supper every day.

The good flour and good yeast we  
 use are grain products containing food  
 elements actually necessary to life.

Bread is your Best Food—Eat  
 more of it.

**MOTHER'S BREAD**

is the bread that always builds and  
 satisfies.
